

Houston Eye Associates

Energy Procurement & Energy Market Intelligence (EMI)

Houston Eye Associates (HEA), is the largest ophthalmology practice in Texas, is a team of 57 board-certified ophthalmologists with advanced fellowship and specialty training in the field of ophthalmology. In addition to its physicians, Houston Eye Associates has 28 locations.

In 2019, Houston Eye Associates hired Onyx for EMI & Energy Procurement services. A thorough Needs Assessment revealed exactly how HEA wanted to purchase energy. Through our structured bid process, HEA awarded a 10-year agreement to a top-notch global energy supplier. This effort was further enhanced as Onyx negotiated HEA's physician's residential accounts to be included on the agreement. Committed to Making Energy Make a Difference, Onyx is excited to support the HEA Foundation as it preserves & restores sight for individuals in financial hardship. Onyx looks forward to benefiting the community in partnership with HEA for years to come.

Since 2009, Onyx Power & Gas Consulting has provided electricity and natural gas consulting services to commercial and industrial consumers. Our robust wholesale trading network and operations allows us to leverage purchasing power. The end result is the most aggressive pricing in the marketplace for maximum savings to our clients.
